Learning focus

Children will be actively engaged in play and discovery, having fun while learning through their own interests. They will make new friends and begin to understand and follow new routines. Through the implementation of clear routines, boundaries, and expectations, we will nurture a strong sense of belonging within our community of learners.

Our learning environment offers real-life experiences and access to authentic resources that inspire curiosity and creativity. Children will explore a wide range of stories and have opportunities to retell familiar tales, building confidence in language and communication. They will reflect on what makes each of us unique by exploring their families, school, and wider community. Whole class discussions will play a key role in deepening their understanding and encouraging thoughtful conversations.

How You Can Support Your Child at Home:

- Read stories together that celebrate different types of families
- Explore your local community together – visit places such as the library, church, or local shops
- Talk about family traditions, values, and what makes your family special

Mini Enquiries

Who am I?
What makes me unique?
What makes us different?
Where do I belong?
What is a family?
Who is in our community?
